

Green Seal Certification is your assurance of environmentally responsible products

Green Seal is a non-profit organization. The intent of Green Seal's environmental requirements is to reduce, to the extent technologically and economically feasible, the environmental impacts associated with the manufacture, use and disposal of products. Set on a category-by-category basis, Environmental Standards focus on significant opportunities to reduce a product's environmental impact.

Want to have your ballots printed locally? No problem. Customers and printers can purchase ECO-ASSURE ballot stock. Contact David Ashworth at 205-339-3372 for ordering information.

ECO-ASSURE™
Secure, recycled ballot stock

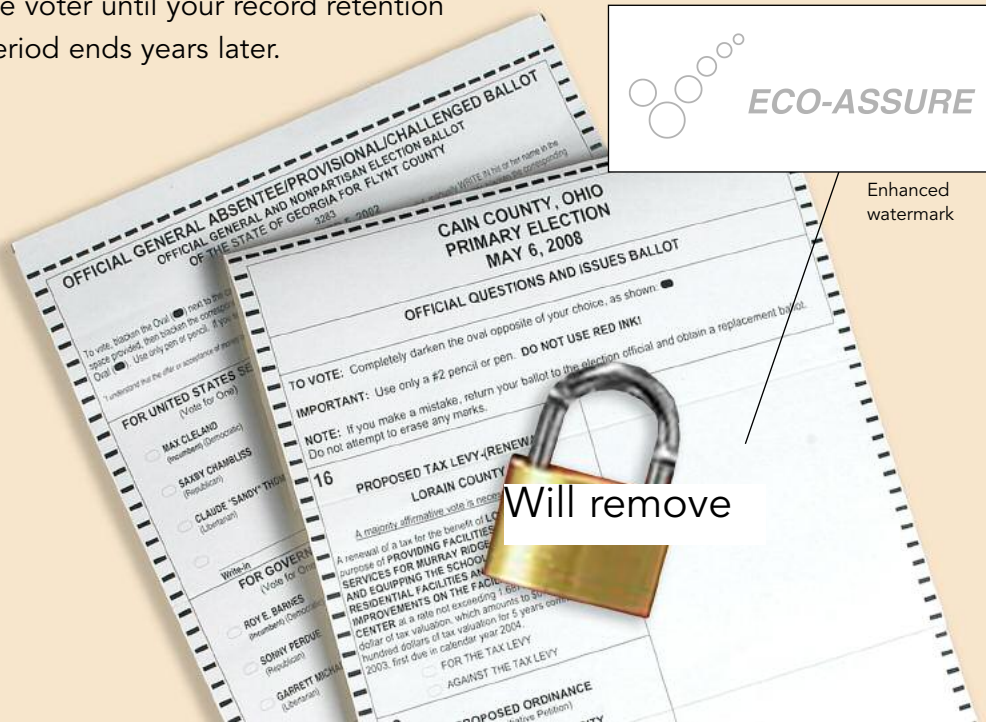

It's how election security goes green.

Introducing ECO-ASSURE™

Premier's new environmentally responsible ballot stock with enhanced security

Assured Security

Premier's ECO-ASSURE™ ballot stock provides a new level of election security by featuring a non-reproducible watermark, which eliminates counterfeit ballots. Scans or photocopies are easily identified and rejected. With ECO-ASSURE, election administrators and the voters they serve can be confident in the integrity of every ballot – from the moment it's issued to the voter until your record retention period ends years later.

Enhanced watermark

Will remove

Environmentally Responsible

ECO-ASSURE is also the environmentally responsible choice. Manufactured under Green Seal Certification standards, ECO-ASSURE is made with 30% post-consumer waste. That saves trees, water, energy, and landfill space, while also reducing greenhouse gases, making ECO-ASSURE the right choice.

ECO-ASSURE is compatible with ALL Premier optical scan voting solutions, and with office printers used for absentee, early voting, or small election ballot needs such as Premier's ASSURE Ballot Printing System.

Every 50,000 ballots printed on

ECO-ASSURE

saves

4 grown trees

1,585 gals water

204 lbs of solid waste

382 lbs of carbon emissions

To find out what your jurisdiction can save, visit www.PremierElections.com for an eco-calculator. Or call Premier today to find out how ECO-ASSURE can make a difference.
