

Pakflatt

Free-Standing Voter Privacy Booth

An exclusive solution

- > **Creates privacy** for up to four voters simultaneously
- > **Provides disability access** for voters in wheelchairs or who need to sit while voting
- > **Easy to assemble** for pollworker convenience
- > **Lightweight** for maximum portability and maneuverability

ACCESSIBLE AND PRIVATE VOTING IN A SIMPLE, CONVENIENT SOLUTION

Pakflatt is a free-standing, portable voting booth that keeps voting accessible—and private—for everyone. The Pakflatt accommodates up to four voters at a time, separating each voting area with opaque panels that ensure voters' privacy as they mark their ballots. The ADA-compliant Pakflatt also features a specially designed compartment that provides access to voters with a disability. The lower shelf assists voters in wheelchairs or those who need to be seated during the voting process.

The lightweight, durable design ensures reliable performance even after repeated transport and assembly. And, like the name says, Pakflatt folds flat for efficient storage.

Premier Election Solutions is the exclusive provider of Pakflatt in the U.S. and Canada.

THREE CONVENIENT SIZES

One compartment

Lightweight, easy-to-assemble and space-efficient solution. Use as a voting booth or a display. Weighs just 12 lbs.

Two compartments

Perfect pack-up-and-go size, the two-compartment Pakflatt weighs just 26 lbs.

Four compartments

Twice the voting capacity of the pack-and-go size but still lightweight – just 44 lbs. Casters included.

Optional clip-on battery-powered light available. Manufactured by Pakflatt.
