

# AccuVote®-OSX

## Digital Scan Voting Solution

### Proven technology

- > **Flexible** digital technology allows ballot layout up to 32 columns
- > **Security** features that ensure the highest level of privacy and protection
- > **Enhance** voter experience with ease of use

### THE MOST ADVANCED DIGITAL SCAN VOTING SYSTEM

The AccuVote®-OSX is a precinct or central tabulation system that delivers secure, reliable voting in a compact and convenient solution.

The AccuVote-OSX digital scan is easy to use and has the same intuitive interface as our industry standard AccuVote-OS optical scanner. Voters simply insert marked ballots into the AccuVote-OSX and are immediately informed if their ballot is accepted. In the event of an overvote, undervote or blank ballot, the AccuVote-OSX displays an easy-to-read text message informing the voter and returns the ballot immediately. These reject ballot conditions are easily programmed during ballot creation using our election management software, GEMS®.

Reliable. Simple. Secure. The AccuVote-OSX is a complete solution that integrates proven technology with superior service to meet the most demanding election requirements – yours.

### ENHANCED SECURITY FROM START TO FINISH

- > **Multi-layer security** – Tamper-evident memory card storage and firmware perform automatic integrity checks to proactively detect memory card corruption and targeted manipulation.
- > **Physical security** – Paper ballots passed through the scanner are dropped into ballot boxes equipped with security locks and tamper-evident security seals.
- > **Transmission security** – The AccuVote-OSX accurately processes ballots at the precinct and can transmit encrypted and authenticated results to the GEMS server at election central.

# RELIABILITY, CONVENIENCE AND SECURITY IN A STATE-OF-THE-ART DIGITAL SCAN VOTING SOLUTION

## ACCUVOTE-OSX KEY FEATURES:

- > Supports multiple card ballots
- > Standard 8.5" ballot width makes printing less complicated and supports the use of standard #10 envelopes, thereby reducing printing and mailing costs
- > Full image scanner (front and back): 200 dpi X 200 dpi
- > Color graphic LCD display (prompting, error messages, system status icons, display menu for setup)
- > No special forms or templates required
- > Flexible ballot size allowing up to 32 columns in 11", 14", 17" or 18" lengths
- > Advanced contact image sensor technology captures a precise image of ballots and provides clear and accurate paper trail to ensure ballots are counted, safely stored and readily available for re-count

## IMPROVED VOTING PROCESS:

- > Election close process completed as quickly as 15 minutes after the polls close
- > Election Results report printed on the AccuVote-OSX
- > Enables accumulated results from the AccuVote-OSX and AccuVote-TSX
- > Total precinct results can be uploaded to a central site

## SPECIFICATIONS

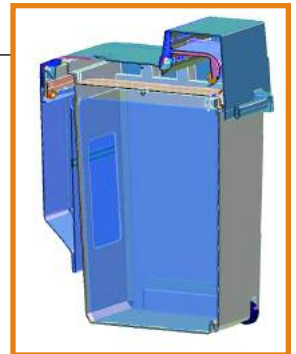

- > The AccuVote-OSX digital scan system is light enough for one person to easily carry, transport, and secure to the ballot box
- > Ballot sensors on the diverter detect delivery into the proper compartment
- > Four-hour automatic battery back-up
- > Measures 18.5"W x 15"D x 4.2"H
- > Weighs just 11lbs.

## UNIT STORAGE & TRANSPORTATION

- > Built-in standard modem
- > Voting unit itself acts as a wire-based results transfer device, eliminating the need for additional hardware
- > Newly designed ballot box includes wheels and a handle for easy transportation to and from voting locations

## BALLOT BOX

- > Three compartments for standard, write-in, blank, and emergency ballots
- > Ballots are driven onto the diverter vane
- > Access door to clear jams
- > Sawtooth pattern on sides of ballot box helps orient ballots for increased capacity

ACCUVOTE-OSX'S INTEGRATED PRINTER GIVES FAST ELECTION RESULTS PRINTOUTS – OR USE THE INTERNAL MODEM TO UPLOAD ELECTION RESULTS.
