

GEMS™ GLOBAL ELECTION MANAGEMENT SYSTEM

GEMS OVERVIEW

- > GEMS™ – Global Election Management System – Microsoft Windows®-based election management and tabulation software.
- > GEMS allows election administrators to easily and completely control every step of the election process, from ballot layout to election reporting, all in one proven application.
- > GEMS automates the complete election cycle from precinct/district setup, to race definition, tabulation and reporting. One-step ballot layout for electronic and paper ballots. Double ballot layout eliminated—an industry exclusive!
- > GEMS is utilized in more than 1,000 election environments throughout North America.
- > GEMS multilingual capabilities support numerous languages in both standard and ADA modes. Eleven languages already used in actual elections—an industry exclusive!

**ONE SOFTWARE APPLICATION:
One Solution – GEMS**

Electronic Pollbook • Precinct Control Center
Smart Card Manager

FAST, ACCURATE, USER-FRIENDLY BALLOT LAYOUTS

Simplifies the cumbersome task of defining ballot styles and layouts: Using straight-forward menus and prompts, specific election parameters are presented and defined in an orderly manner. Automation then takes over to generate ballot layouts and styles. Simple point-and-click procedures.

Preview any and every ballot right on the screen.

FLEXIBLE, INTUITIVE REPORTING

Fast and customizable: GEMS' standard Internet and reporting capabilities allow election administrators to quickly report results and to customize reports for specific needs.

The most extensive and flexible report templates in the industry – there are dozens of standard reports to assist with proofing election databases and confirming ballot styles.

GEMS allows interfacing to existing voter registration systems through sophisticated import/export features. Data entry tasks are reduced or eliminated.

Internet results reporting: GEMS can also provide election results to the Internet in HTML, text, PDF and Java (applet) formats.

GEMS CAN INTEGRATE:

- Election data entry
- Interfaces to voter registration
- Ballot layout
- Accumulation and reporting of results
- Audio recording for visually impaired voting
