

ExpressPoll®-5000

Automated Voter Verification Solution

Proven benefits

- > **Increase** the accuracy of voter information
- > **Automate** upload of voter history data and reduce human error
- > **Link** voter registration system, voting system and polling place
- > **Empower** poll workers by simplifying the Election Day process
- > **Enhance** voter experience with shorter lines and faster voting

THE SOLUTION IS SURPRISINGLY SIMPLE

Our mission: automate a process that historically consumed time and resources. By leveraging proven, advanced technology, an automated solution connects the precinct to the voter registration database and is scalable to meet a wide variety of jurisdiction needs. With more than 15,000 units deployed, ExpressPoll®-5000 is THE complete, dependable solution.

The lightweight ExpressPoll-5000 can store registered voter information for a precinct, a district or the entire jurisdiction. A poll worker can enter various information onto the large, easy-to-read touch screen to verify a voter is registered.

The ExpressPoll-5000 is intuitive and simple to use, and can add value and convenience to your voting process.

THE ACCURATE AND SECURE SOLUTION

- > **Data Integrity** – Automated voter authentication provides the most up-to-date, accurate voter registration database information across precincts
- > **User Access Management** – Restrict user access to only those functions necessary to perform individual duties
- > **Voter Identification** – Use the signature pad to compare captured signatures with the voter registration system and update them as needed
- > **Data Security** – Data and Smart Cards are encrypted to ensure that the data is securely protected
